

TABLE-TITLE: Three cells per row

Item	Quantity	Note
amber	7	warm sample
cobalt	12	cool sample
jade	4	green sample

TABLE-AFTER: The paragraph follows all four rows.
The cell boundaries are structural, not literal text separators.

CODE-TITLE: Preserve indentation and list structure

CODE-INTRO: The next eight lines are one code block.
Whitespace inside that block carries indentation.

```
// CODE-START: nested accumulation
function total(values) {
  let sum = 0;
  for (const value of values) {
    sum += value;
  }
  return sum; // CODE-END
}
```

1. LIST-ONE: Pack the amber map.
Keep the folded copy with the original item.
2. LIST-TWO: Check the violet compass.
 - a. LIST-NESTED: Record the northern bearing.
3. LIST-THREE: Close the copper case.

CODE-AFTER: This is a separate prose paragraph.
It must not become part of the final list item.
